

MapReduce

Data Collector

YARN Yet Another Resource Negotiator

HDFS Hadoop Distributed File System

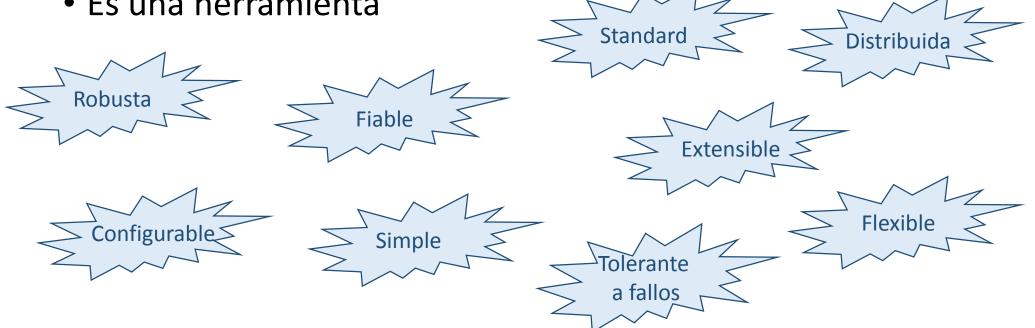

Hardware Básico

• Es una herramienta

para la adquisición de datos (Data ingestion) provenientes de diversos generadores de datos (webservers) en Hadoop.

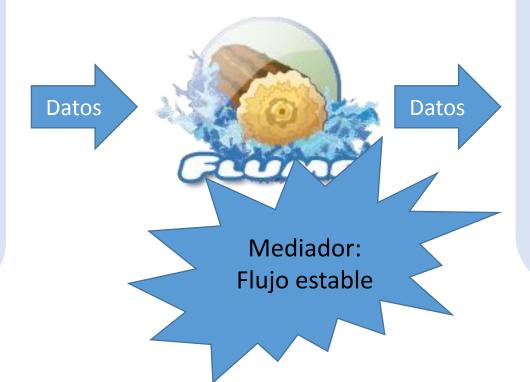

Generadores de datos:
Log/Eventos

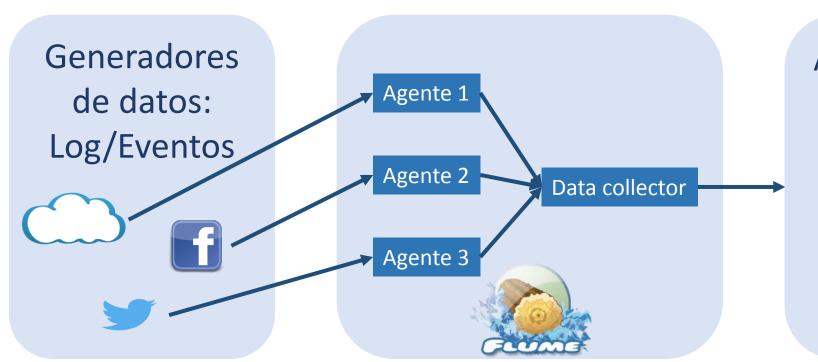

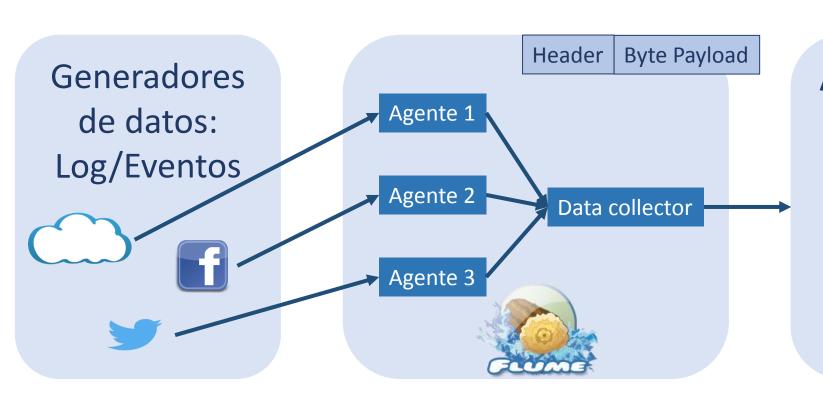

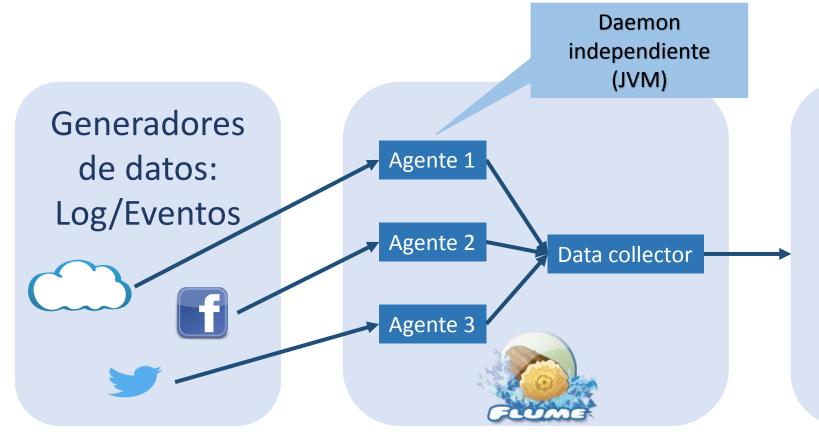

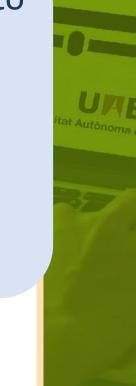

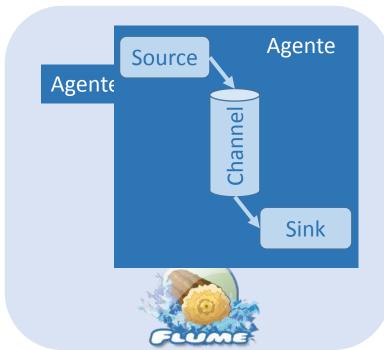

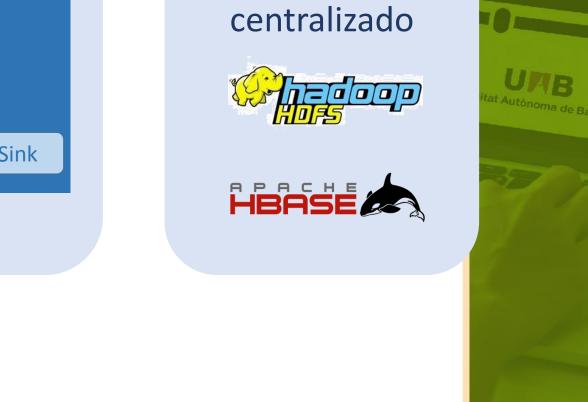

Generadores de datos:
Log/Eventos

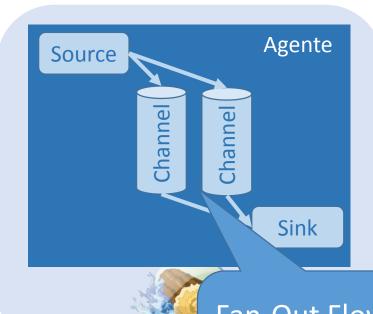

Generadores de datos:
Log/Eventos

Fan-Out Flow:

- Replicating
- Multiplexing

Generadores de datos:
Log/Eventos
